**FIA Karting Race Director**

**Gonzalo Planter**  
**FIA Karting Deputy Race Director**

## **1. Digital FIA Karting Licence & License Penalty Points**

- 1.1. As per Article 28.B of the 2025 FIA Karting Specific Prescriptions, all 2025 FIA Karting Championships Events will be subject to the accumulation of “Penalty Points” on a driver’s Digital FIA Karting License. When a penalty is applied under the Code or Article 2.24 of the FIA Karting General Prescriptions, the Stewards may impose penalty points on a Driver’s Digital Licence.
  
- 1.2. If a Driver accrues 12 penalty points on his/her Digital Licence, a one-race ban is to be automatically applied, following which 12 points will be removed from the license. The one-race ban is applicable to any event counting towards an FIA Karting Championship, and is transferable between different Championships.

## **2. Light Panels on Marshals Posts**

- 2.1. Light panels have been installed at every Marshals post; the light signals have the same meaning as flag signals.

## **3. Observing yellow flags/lights.**

- 3.1. When a yellow flag/light is displayed at a marshals post no overtaking is permitted; under ‘Double Waved Yellows’ slow down, do not overtake, be prepared to change direction or stop.

## **4. Entering the Track for Laps during qualifying.**

- 4.1. Please ensure you leave the pits safely and do not impede drivers at any time on track.

## **5. Drivers leaving the Dummy Grid / Pit Lane.**

- 5.1. For safety reasons, all karts entering the circuit must do so in a safe manner and inside the ‘pit exit’ white lines.

## **6. Restarting after a ‘SLOW’ procedure.**

- 6.1. Please see below diagram:
  
- 6.2. **Restart** – no overtaking is allowed before the start/finish line. Drivers should follow the leading kart at a slow and constant speed, in either a single file or staggered formation, but never with any part of their bodywork in front of the

leading kart's rear bumper. Acceleration by the poleman should start upon approach of the track's "Yellow Line"

## **7. Circuit & Parc Fermé Cameras**

- 7.1. The FIA Camera System is operational on circuit and in Parc Ferme, including in the Pit Entry/Scale line.

## **8. Specific Regulation Regarding 'Front Fairings'**

- 8.1. We remind Competitors that, as per Article 2.3.3 of the 2025 FIA Karting General Prescriptions, an attempt (whether successful or not) to reposition a front fairing which is not correctly positioned (by a Driver or a third party, and as defined by Technical Drawing 2.2.1 of the 2025 FIA Karting Technical Regulations), a report to the Stewards of the Event will be made. If found guilty the mandatory penalty is **DISQUALIFICATION FROM THE EVENT**. We remind Competitors that upwards of 40 Race Control cameras are available throughout the track, and the provisions of this Article will be closely monitored throughout the Event.

## **9. Helmet and Visor cam**

- 9.1. We remind competitors that helmet and visor on board cameras are strictly forbidden at all times as they are modifications to the helmet, forbidden as per Appendix L, Chapter III, Art. 1.4 of the ISC.

## **10. Race Suspension – (RED FLAG)**

- 10.1. Should a race be Red Flagged, please ensure to slow down and be prepared to stop as instructed by the marshals. Where possible, drivers will be directed to the start/finish line where they must stop and not carry out any work or interfere on the kart until approved by an FIA Official/Scrutineer. Additional details about the restart procedure will be given at the drivers/competitors briefing.

**11. Broken down karts on the track**

- 11.1. Wherever possible (and if safe to do so) Drivers must remove their karts to a place of safety, move as soon as possible to the closest Marshall post (or place indicated by the officials) and wait there until the end of the Session.
- 11.2. It is mandatory to wear the driver's helmet properly when on the pick-up vehicle.

**12. Attempt to restart**

- 12.1. As per Article 2.14 T of the 2025 CIK FIA General Prescription, the following attempts to restart procedures should be followed :
  - 12.1.1. **DURING THE FIRST LAP:** If the kart is to stop on track for any reason, the Driver shall only have a singular attempt to restart, after which the kart is to be moved in a safe location. In any case, the restart attempt must be done outside of the racing line, and in a safe manner.
  - 12.1.2. **AFTER THE FIRST LAP:** If the kart is to stop on track for any reason, the Driver **WILL NOT ATTEMPT TO RESTART** and the kart is to be moved in a safe location.
  - 12.1.3. Failure to comply with this rule will result in a penalty imposed by the Stewards, which may lead to the disqualification from the race where this rule was violated or any other penalties under Article 12.4 of the Code. This penalty is not subject to appeal.

**13. Chequered Flag – In lap**

- 13.1. After the chequered flag, and without overtaking, every driver must go back to parc fermé without any delay, at a slow speed and avoiding dangerous driving liable to hinder other competitors.

**14. Pre Grid & Kart Repairs**

- 14.1. No tools are allowed on the Final / Pre-Grid – if a kart is worked on with tools within these spaces, a report will be sent to the Stewards. We remind that the applicable penalty for the above infringement is Disqualification from the Heat/Final concerned. We remind you that the only allowable intervention is the removal of air from a tyre. Tyre gauges with incorporated inflation devices are forbidden.

14.2. The only exception allowed to Art 14.1 of these Race Director's Event's notes will be any work carried out on a kart following a failure to start from the pre-grid (*E.G Faulty spark plug requiring a change*). The tool - assisted work will only be allowed following a clearly demonstrated failure to start, noted by a Judge of Fact, the Technical Delegate or the Race Director(s). The Driver concerned will take the start from the back of the formation, irrespective of the number of Formation Laps, upon order of the Race Director or Judge of Facts/Scrutineers.

## **15. Drivers/Competitors Briefing**

15.1. We remind all Drivers and Competitors that official briefing is mandatory: refer to the timetable of the event to check date and time.

## **16. Summoning**

16.1. All Events of the 2025 FIA Karting Championship's Season will proceed with summoning by the Stewards in digital format, through SMS texts, replacing the traditional runners.

16.2. Should a Driver be summoned, he/she will receive an SMS text message informing him/her of the summon. The Driver's Competitor will also receive the same message.

We also collect some of this information from other motorsport participants with whom you interact, such as your employer, officials, your previous employers, other Drivers and Competitors and from broadcasters and the media. This is especially true where we carry out our integrity and disciplinary role.

As part of our integrity activities, we also actively gather intelligence from relevant sources, including members of the public and publicly available sources, including with the assistance of our background screening providers. We also collect data from anti-doping organisations (such as the World Anti-Doping Agency and National Anti-Doping Organisations) and our appointed anti-doping service provider.

Where you choose to involve a third party, for example, your employer, a representative, lawyer or relative, we will receive and share data with this person or organisation.

#### **Why we collect, use and store this personal data**

We are usually required to have a lawful basis to process your data. We explain each of these legal bases below. We also set out the purposes for which we process your data. For each purpose, we explain the lawful basis for that processing, the processing operations that we carry out and the categories of data that we process.

##### *Legal bases relied on by the FIA for motorsport related processing*

**Consent** – sometimes we ask for your consent to use your data.

**Contract** – if we have an agreement in place with you, we may process your data where it is necessary for us to meet our obligations or enforce our rights under the contract.

**Legitimate interest** – we can process your data when this is necessary for us to achieve a legitimate business purpose, or where this is necessary for someone else to achieve their legitimate purpose. We explain below what interests we, or others, are trying to achieve when we process your data. Where we process personal data on the basis of a legitimate interest, we consider what the impact of the processing will be on affected individuals and determine whether those individuals' interests outweigh our interests in the processing taking place.

**Legal obligation** – we have obligations to comply with legal and regulatory requirements under various applicable laws. In certain cases, we have to use your data to meet these obligations.

**Vital interests** – in exceptional circumstances, we may rely on the need to protect your vital interests to process certain data, particularly sharing information as needed with medical professionals for safety purposes.

Where we process your special category data – such as information relating to your health, biometric data that might identify you, your ethnicity, your religion, your sex life or sexual orientation, your trade union membership or your political opinions – we usually require a further lawful basis. These are as follows:

**Explicit consent** – we may ask you to consent to use this data;

**Medical diagnosis/preventative and occupation medicine** – we will only process data for medical purposes where required by law, or under the supervision of a health professional who is subject to an obligation of professional secrecy;

**Substantial public interest, as set out in law** – the law may make special provision for our processing, for example in relation to health and safety requirements;

**Establishment, exercise or defence of legal claims** – we are entitled to process special category data where this is necessary to establish, exercise or defend our legal rights;

**Scientific research, as permitted by law** – we will use your special category data for research where we can demonstrate that we meet legal requirements and have applied appropriate safeguards;

**Vital interest** – again, in exceptional circumstances, we rely on the need to protect your vital interests to process your special category data.

For certain types of processing, the FIA may be exempt from the requirement to have a lawful basis. This is notably the case where the FIA processes personal data to allow academic or artistic expression. The FIA has explained in this notice where this is relevant to its motorsport related processing.

***FIA purposes of processing***

The FIA processes your data for the following purposes:

**Administering and managing FIA Events, including selecting and authorising Competitors, manufacturers and suppliers, issuing motorsport licences and categorising Drivers, and associated health assessment (legitimate interests, healthcare processing, explicit consent)**

We collect and use your personal data so that we can carry out the FIA's role as a FIA Events organiser, and as a governing body providing administrative assistance and management of FIA authorized Events. This reflects our legitimate interest in administering and managing these FIA Events, and the legitimate interest of other motorsport participants in ensuring these FIA authorized Events can take place. This includes the collection of personal data to carry out due diligence in the selection and authorisation of Competitors, suppliers and manufacturers, to issue motorsport licences and categorise drivers, to issue media and other access accreditations, to allow Competitors and Drivers to register for specific FIA Events, to appoint and manage relevant officials and to provide administrative support to FIA Events such as issuing additional accreditation, liaising with third parties such as venues, Promoters or Organisers. It may also involve the taking of certain payments where required for entry or registration for a particular FIA Events or for obtaining a particular categorisation or accreditation.

Where we collect any special category data, particularly safety data collected in accordance with the role of the FIA's medical teams and medical delegates set out in the International Sporting Code, we rely upon our need to assess your health under the supervision of a healthcare professional where appropriate safeguards are in place. Where we receive your health data in connection with your fitness to attend an event, particularly as this relates to rules connected to Covid-19 protocols, we will typically process this to ensure the health and safety of other participants at these events.

In some cases, if you provide us with special category data to provide administrative or other assistance, we seek your explicit consent to process this information to the extent required by applicable data protection laws. Failure to provide this information, or withdrawing your consent, may result in the revoking of a licence if this would mean you are not eligible for the relevant licence, or may mean that the FIA is unable to provide appropriate assistance.

We use your identification data, contact details, travel related data, motorsport participation data, motorsport performance data, integrity and conduct data, financial data and safety data for this purpose.

We share your information with Organisers, our officials, with appropriate authorities involved in the organisation of a FIA Events, with Promoters and with our suppliers for example our background screening providers who assist with assessment of potential participants and IT service providers who host relevant platforms, our professional advisors, and travel agencies involved in our administrative role. Where you are a Driver seeking a licence, we share information relating to your application with your team and representatives and your ASN. We also publish certain information, such as the names and categories of categorised Drivers and details of individuals who have

had motorsport licences suspended. We also share information with law enforcement authorities if they have specific questions regarding the administration and management of FIA Events.

**Carry out the FIA's governance, integrity and disciplinary role (legitimate interests, establishing, exercising and defending legal claims, substantial public interest, explicit consent)**

We process personal data to carry out the FIA's governance role in motorsport, including the collection and processing of information to confirm and enforce compliance with the FIA's Statutes, International Sporting Code and the FIA's Sporting, Technical and Financial Regulations, Judicial and Disciplinary Rules, and any other FIA rules and regulations that may apply from time to time. This includes the collection of information directly from you, and from third parties with whom you may interact in motorsport, such as your ASN, your employer or team or your relatives. We also receive information from a wider variety of third-party sources where this provides relevant information or intelligence, including the media, members of the public and other motorsport participants.

We will use the data to carry out any necessary disciplinary and other legal processes, including appropriate investigations into possible breaches of our rules and regulations, to take decisions and enforce our decisions, and to publish details of the integrity decisions we take, including details of any bans we may impose. This processing is done to pursue our legitimate interest in maintaining the integrity of our sport, and the legitimate interest of other competitors to ensure motorsport is fair and free from improper influence or cheating.

In some cases, where we collect special category data for this purpose, we may rely on an additional lawful basis to the extent required by applicable data protection laws. Some of our integrity processing relies on specific local laws in the substantial public interest, for example to justify the processing of anti-doping data. We are also entitled to process special category data where we are seeking to establish, exercise and defend legal claims in the enforcement of our rules and regulations, including our Anti-Doping Regulations. However, in some cases we may need to seek your explicit consent. Where we rely on this consent, you may refuse or withdraw this consent at any time, but this may limit your ability to participate in motorsport if this undermines our ability to ensure compliance with our regulations.

The information we use for this purpose is your identification data, your contact details, your motorsport participation data, your motorsport performance data and your integrity and conduct data. For a number of purposes set out above, the data sharing described is likely to result in the sharing of your data with third parties located outside your country; in principle, this may be any country in the world. Where information is transferred outside the EEA, Switzerland or the UK, and where this is to a third party in a country that is not to a country considered adequate under Swiss, EU or UK law, data is usually adequately protected by approved standard contractual clauses, or a vendor's Processor Binding Corporate Rules. In some limited circumstances our transfers may be exempt from adequacy obligations, where transfers are for important reasons of public interest, such as sharing of data for anti-doping purposes. Where we transfer on the basis of an adequacy mechanism, a copy of the relevant mechanism can be provided for your review on request by contacting us using the details set out below.

### **What rights do I have?**

You have the right to **ask us for a copy** of your personal data; to **correct, delete or restrict** (stop any active) processing of your personal data; and to **obtain the personal data you provide to us for a contract or with your consent in a structured, machine-readable format**.

In addition, you can **object to the processing** of your personal data in some circumstances (in particular, where we don't have to process the data to meet a contractual or other legal requirement, or where we are using the data for direct marketing).

These **rights may be limited**, for example if fulfilling your request would reveal personal data about another person, where it would infringe the rights of a third party (including our rights) or if you ask us to delete information which we are required by law to keep or have compelling legitimate interests in keeping. Relevant exemptions are included in European, Swiss and UK data protection laws and under applicable member state laws. We will inform you of relevant exemptions we rely upon when responding to any request you make.

To exercise any of these rights, you can contact us – or our Data Protection Officer – using the details set out below. If you have unresolved concerns, you have the right to complain to an EU data protection authority where you live,

work or where you believe a breach may have occurred. This may be the CNIL in France. You may also complain to the Federal Data Protection and Information Commissioner in Switzerland.

We will always inform you where information you provide is mandatory. Information that is provided in order to comply with the FIA's various rules and regulations listed above is mandatory. Failure to provide this information breach our regulations.

#### Details of the FIA as a controller

The FIA has two primary entities: a French association having its registered office in 8 Place de la Concorde, Paris, and a Swiss association having its registered office in 2 Chemin de Blandonnet, Geneva.

Both entities work together as joint controllers in the processing of personal data relating to motorsport. These entities collaborate on the determination of the purposes and means of processing described in this notice.

The FIA's Swiss association takes primary responsibility for supporting data subjects, and in handling any requests data subjects may have. You can find the relevant contact details below.

#### How do I contact you, or your data protection officer?

We hope that we can satisfy queries you may have about the way we process your data. If you have any concerns about how we process your data, you can get in touch with us and our Data Protection Officer at [dpo@fia.com](mailto:dpo@fia.com) or by writing to: Commercial Legal, 2 Chemin de Blandonnet, 1215 Geneva 15, Switzerland.

#### How long will you retain my data?

FIA will retain and process personal data relating to Participants for as long as necessary for the purposes identified above, including for the purposes of satisfying any specific legal requirements, such as accounting or health and safety rules, and, where required for us to assert or defend against legal claims, until the end of the relevant limitation period or until the claims in question have been settled.

After this period, we will take steps to delete your personal data or hold it in a form that no longer identifies, you provided that we have no further lawful basis requiring us to maintain your data.

Where we maintain a record of motorsport, we retain your data indefinitely in order to maintain a historically accurate record.

#### Updates to this privacy notice

We reserve the right to update this privacy notice at any time, and we will provide you with a new privacy notice when we make any substantial updates. We may also notify you in other ways from time to time about the processing of your personal information.
